public class Solution {
   public static void main(String[] args) {
       Scanner sc = new Scanner(System.in);
       int x = sc.nextInt();

       if (x > 0) {
           System.out.println("x is greater than 0");
       } else {
           System.out.println("x is less than or equal 0");
       }
   }
}
```

Solution 2:

public class Solution{
   public static void main(String[] args) {
       double temp = 103.5;
       if (temp > 100) {
           System.out.println("You have a fever");
